

REMARKS

This Amendment is submitted preliminary to the issuance of an Office Action in the present application.

Applicant has amended original claims 1 to 11 to remove any multiple dependency of the claims and to present the claims in proper form and language so as to better encompass the full scope and breadth of the invention. Applicant asserts that these amendments are cosmetic in nature and that no claims have been narrowed to trigger prosecution history estoppel. Claims 12-17 have been added to set forth additional subject matter described in the original disclosure.

In addition, applicant has amended the specification to present it in proper form and language and to remove any reference to particular claim numbers.

A substitute specification which includes all the foregoing changes to the specification (other than the claims) is enclosed herewith.

When the Examiner takes this application up for action, s/he is requested to take the foregoing into account.

Respectfully submitted,

By:
